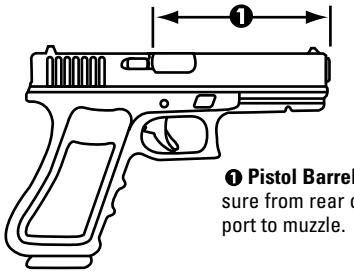
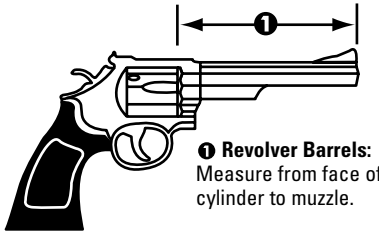
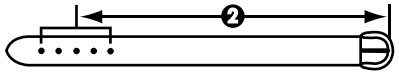
METHODS OF PROPER MEASUREMENTS:



❶ Pistol Barrels: Measure from rear of ejection port to muzzle.



❶ Revolver Barrels: Measure from face of cylinder to muzzle.



❷ Measurement of Belt Length: Measure belt from the hole ***now being used*** to the inside end of the buckle. Measure to the 1/4 of an inch. Add 2" for all inside-the-waistband and between-the-waistband-and-belt holsters.

❸ Measurement of Belt Slot or Loop: Width of belt the holster is to fit if you are not ordering a belt at the same time. Widths available are 1", 1-1/4", 1-1/2" and 1-3/4". For best function, we do strongly recommend our belts.
